Performance of your Company

There is no good news for you in terms of operational results of the company. Since last five six years, your company is under tremendous pressure of adverse factors like lesser demand, not up to the mark recovery in the Indian textile industry against considerable revivals in the world economy and further this year also no revenue could be generated from the IT park project. The final cumulative effect of all these factors resulted into losses in your company. But comparative to previous year, the company's turnover got a marginal jump and the losses of your company were also decreased in comparison to previous year.

As you are already aware that in 2012, the company made a reference to BIFR on 05th July 2012 and it was registered in BIFR as Case No.37/2012 vide letter No. 3(S-8)/BC/2012 dated 02nd August 2012. The proceedings before BIFR were started during the previous financial year. During the year under report the Board abated the application against which the company has filed an appeal before AAIFR(Appellate Authority for Industrial & Financial Reconstruction). Further the consortium Member Banks have issued notice u/s 13(2) & 13(4) of SARFAESI Act against which the company has filed an appeal u/s 17(1) of SARFAESI Act before the DRT Tribunal Chandigarh.

Results of the Company for the last financial year are as follows; total revenue for the year ended 31st March, 2014 has been increased to Rs. 71.82 Crores as compared to previous years' Rs. 70.48 Crores, hence there was a marginal increase of appox. 1.88%. The Operating Loss before tax is Rs. 28.30 Crores during the year and No Provision for deferred tax has been made during the last financial year as there is no certainty of future taxable income. The Net Loss for the year was Rs. 28.88 Crores against a Net Loss of Rs. 39.24 Crores in the previous financial year.

Dividend

The Company has continued to incur heavy losses in the last financial year also due to adverse factors as stated above; hence the board of directors does not recommend any dividend for the financial year ended on 31st March 2014.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The company kept on carrying its operation from the works located at plot no. 207-208, Sector-58, Faridabad. During the year under report the revenue from operations has shown slight increase in comparison to the previous year. Lack of uninterrupted power, increased power cost, high transaction cost, high labour cost and above all, high interest costs were hindering the progress of your company. Apart from textiles, this year also no significant revenue could be generated from the IT park project in collaboration with RPS Infrastructure Limited on the land situated at 12/6 Mathura Road Faridabad. However, Management of your company is making all out efforts to cope with all these challenges by continuous efforts at cost reduction, process improvements, and improving productivity by improving efficiencies.

As you are well aware that the main reason of present poor financial condition of your company is continuous delays in generating revenue by IT Park Venture of the company in collaboration with M/s RPS Infrastructure Ltd. The collaborator M/s RPS fails to adhere with the commitments of cash flows as envisaged by RPS Infrastructure Ltd at the time of collaboration. The Collaborator M/s RPS Infrastructure has also not acted in the spirit of collaboration agreement. M/s RPS Infrastructure availed a Construction loan amounting to Rs. 100 Crore from Oriental Bank of Commerce and United Bank of India by mortgaging the project land owned by your company. This loan was supposed to be disbursed by the banks only for the construction of the IT Park after being satisfied with the pace of construction and deployment of committed promoters funds towards the construction of the Project. But the significant loan amount was disbursed without monitoring the quantum of construction and deployment of funds towards the construction of the project. This further disbursed amount was also not used for construction of IT project under collaboration because there is negligible funds deployed for construction work at project site in comparison to as the amount should be according to sanction terms of the Bank. In this way the interest of your company was defeated by the collaborator by acting against the spirit of collaboration. Management of your company has raised this issue before the different courts of law.

As in line with the previous year, Increased cost of manufacturing continuously made stress on the profitability of the company and pulled the gross margins towards negative figures. Besides economic conditions of the country, industry scenario being favorable to Industry but the internal factors of the company are not supportive because of heavy interest bearing unsustainable bank borrowings which were supposed to be vanished/paid out of the expected revenue from the IT Park Project. Being surrounded by all these adverse situations the Management of your company presents its analysis over and on the performance and operating results during the year under report and its outlook for the future.

INDUSTRY STRUCTURE AND DEVELOPMENT OUTLOOK

During the period under report the global economic scenario remained uncertain and challenging with a marginal growth rate in 2013. The main reasons behind this were weak recovery in the US and Europe and a general economic slowdown in emerging economies like China and India.

As far as Textile Industry is concerned, both US and Europe constitute a Big Market and cover more than 40% exports from India for Textile Industry. Slow down in both the economies always make a big effect on Indian Textile Industry. Further Raw material costs have been in upward trends in India. But due to slow down in their own countries overseas buyers are also not able to compensate these increased costs and hence Indian textile Industry is facing heat due to increase in input cost without being able to pass on such higher costs to overseas Buyers.

ROAD AHEAD FOR THE TEXTILE INDUSTRY

There is good scope for growth for the textile industry as India's share in Global trade in textiles is weak compared to other countries. The free trade environment is a great opportunity for the Indian Textile industry to increase its share in global market. Chinese Exports are slowing down on account of various factors inclusive of increase in domestic demand and rising costs. This is a good opportunity of which our Indian Textile Industry should make use .

BUSINESS MODEL OUTLOOK AND REVIEW

Continuous wipe out of company's Net worth compelled the management in 2012 to make a reference to BIFR. The same was Registered on 2nd August 2012. During this year also the Board fixed various hearing for getting information and explanations from the company which were duly provided in time. But the Board has abated the company's application in accordance with third proviso for section 15(1) of SICA, against which your company has filed an appeal before AAIFR(Appellate Authority for Industrial & Financial Reconstruction). Further the consortium Member Banks have issued notice u/s 13(2) & 13(4) of SARFAESI Act against which the company has filed an appeal u/s 17(1) of SARFAESI Act before the DRT Tribunal Chandigarh which is pending for consideration.

The company could not repay the term liabilities and service the interest liabilities to the bankers. But the Management of your company is continuously trying to bring back the company on track. The management is hopeful that as and when the realizations from the IT Project starts, the position of the company will be better. In this way ahead your company has filed suits against the Collaborator in different courts of law for his casual and unethical approach in executing the IT Park Project.

OPPORTUNITIES AND THREATS (SWOT ANALYSIS)

As discussed above there is good scope for growth for the textile industry as India's share in Global trade in textiles is weak compared to other countries. Also in Domestic Market growing demand and liberalisation policies of Govt. has expanded the play ground field for Textile players.

However, smaller countries like Bangladesh, Sri Lanka, Pakistan Turkey and Vietnam etc. are becoming formidable challengers. Further increased input costs coupled with high utility costs such as increased power costs is also hindering the progress.

However, the management of your company are making all efforts to cope with all these challenges and will try to explore these opportunities and will try to improve the present position of your company. The Management of your company is making utmost efforts to realize revenue from IT project so that the liabilities can be reduced and interest burden may be relaxed on the operational results.
